# PRODUCT CATALOG

## HiResolution Bionic Ear System

Advanced Bionics is committed to providing the best possible hearing experience for our cochlear implant recipients. The **HiResolution™ Bionic Ear System** was designed to help recipients maximize their hearing potential and experience as much of the full spectrum of natural sound as possible.

This product catalog features accessories and components that set the standard in quality and innovation, while allowing recipients to customize AB sound processors to fit their needs—all weather, all sports, all terrain, all ages, all lifestyles.

From **Neptune™**, the industry's first **freestyle™** design, to **Naída CI Q70 (Naída CI)**, the market's first **instyle™** processor, AB delivers groundbreaking products to suit every recipient.

# NAÍDA CI Q70

small size, big performance

The Naída CI Q70 (Naída CI) sound processor combines state-of-the-art advancements from AB and Phonak, the innovation leaders in cochlear implant and hearing-aid technologies, providing improved hearing in a wide variety of listening settings.

With a chic, lightweight design, the Naída CI features fun, fashionable colors, Phonak Binaural VoiceStream Technology™, and the industry's first wireless and bimodal streaming capability for high-performance hearing that is always *instyle*™.

# NEPTUNE™

the industry's first freestyle™ design

Developed for all ages and lifestyles, the lightweight Neptune sound processor features the industry's first freestyle™ design, allowing you or your child to hear your world with the comfort and beauty of nothing on the ear. Only Neptune gives you the freedom to choose your wearing style—in your hair, on your arm, under your collar, in your pocket—thanks to an array of flexible accessories. Whether you want to take it for a swim, tuck it away discreetly, or show it off with a wide range of fashion-forward colors, the freestyle design lets you wear it how you like it!

# HEADPIECES

designed for **comfort, convenience, and style**

There are two headpiece options for use with Advanced Bionics sound processors: the Universal Headpiece and the AquaMic™. Compatible with all AB processors, the Universal Headpiece has been developed for use during everyday activities and features a sleek, low-profile design. Fully waterproof for use with the Neptune sound processor, the AquaMic is designed for hearing while swimming, bathing, and showering. Headpiece caps and cables come in a variety of colors to choose from for mixing and matching or blending in with hair and skin.
